VOLUME XIII

COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY JULY 13, 1910.

NUMBER 36

Depp-Allen.

Dr. Henry W. Depp, of this place, and Mrs. Ada Allen, of Burkesville, were married at the latter place Sunday, County Judge Collins officiating. Dr. Depp is the son of Mr. A. Depp, of the Beaver Creek country, and is a physician. He practices in this place. His bride is one of the attendants of the Gaineboro Telephone Co., at Burkesville, and is said to be a charming young lady. Mr. Depp will return here next week, but Mrs. Depp will remain at Burkesville until Aug. 1st. They will reside here—Glasgow Republican.

The bride is a sister of Messrs Elipo and J. C. Strange and Mrs. Sam Beck, of this place. She has visited Columbia several times, and is acquainted with quite a number of Columbians.

## For Sale.

On account of removing from the county, I offer my home on Lebanon Avenue, Campbellsville, Ky., for sale. The house has 6 rooms and bath room and store room; besides 3 large closets, basement, and whole house, concrete walls and floor.

The first floor is hardwood finish, upstairs finished white. Porcelain bathtub, lavatory and water-closet in bath room, and porcelain sink in kitchen; hot and cold water on both floors; Compressed air tank in basement gives good water pressure; furnace warms whole house by hot air system.

Grate and cabinet mantel in reception hall, built in chest in dining room, and large cupboards in kitchen, never failing well of fine drinking water, and large cistern. Electric lights in every room and basement. Large barn and plenty of land; 165 feet front on street, with good set of grass on lawn.

An ideal home, with all the comforts of city and country combined.

36-21

W. L. Newberry.

A postal card from Mrs. Bettie Check, Nashville, Tenn., to her niece, Mrs. S. P. Miller, states that her daughter, Minnie, has been a great sufferer for one year. The doctors decide that it would require an operation to bring about relief, and on July 12 she was taken to an army surgeon and the operation performed. It was successful and the patient is doing well.

W. J. M. Campbell, who has been with Floyd & Bohr Co., Louisville, has tendered his resignation and has accepted a position with the Curtright & Griggs Co., Inc. Campbell is one of Adair County's best men, is perfectly reliable, and has many friends throughout this section of the State. He is now visiting the merchants and graymen and will be thankful for all their extended.

Bishop T. C. Carter, who was in office last Friday, informed us that a building of a United Brethren Church had not been obtained yet. He stated that the work had been delayed on account of other pressing matters, but that he thought everything would be in shape for the completion of the edifice before spring. He further stated that if any thing should arise to prevent the erection of the building that a satisfactory settlement would be made with all the donors.

About one hundred and twenty-five persons residents of Columbia and citizens of Adair County attended the Lebanon Chautauqua from two to four days. Average the expenses at \$10.00 each which is a low estimate, and you have \$1,250. The stage lines gave about \$120 and the railroad about \$110 toll, \$35.00, the last three items make \$265. Take that from \$1,250 and you have \$985 received by Lebanon.

The nominating petitions for school trustees are now in the hands of the Superintendent. Friends who expect to be voted on in said election will have to be nominated in the petition. The petition signed by not less than ten qualified voters, must be filed with the County Clerk at least ten days before the election. Please call on the superintendent for said blanks.

The Transylvania Presbytery has convened to the Trustees of the Graded School of the Town of Columbia, the college building, known as the M. and F. High School property, for \$1,000, the money to be paid in October next. It is stated in the deed, which is now of record, that the building is to be used for school purposes only.

Mr. Sam Beck has left at this office a sample of apricots grown on his place. The tree is only four years old and it bore last year. This year the limbs are breaking with the luscious fruit, and it is believed that there are eight or ten bushels on the tree. The two twigs left at this office were as full as we could hold, sixty-five apricots being on them.

## Meets With an Accident.

Miss Alice Walker, of this place, met with an accident last Tuesday night while en route home from the Lebanon Chautauqua. She left Campbellsville about nine o'clock in company with Mr. Ray Fleeters. The night was dark, the road the first leg of the trip, but it could not be seen, and their hungry struck it, tilted, throwing Miss Alice to the ground. She was considerably bruised about the right arm and right shoulder, but she was able to come home. Since the accident she has suffered considerably, but her friends, who have called, say she is all right in a few days. Mr. Fleeters was not hurt, but badly frightened, to be relieved when he learned that Miss Alice's injuries were not serious.

## Public Speaking.

Hon. D. C. Edwards, Republican candidate for Congress, will address the voters of Adair county the following places, date and time given:

Torgia, Monday July 18, 10 a.m.  
Prurus, Monday, July 18, 2:30 p.m.  
Craggsville, July 18, 7:30 p.m.  
Cane Valley, Tuesday July 19, 10 a.m.  
Watson, July 19, 2:30 p.m.  
Kittifield, July 19, 7:30 p.m.  
Pettijohn, Wednesday July 20, 10 a.m.  
Purdy, July 20, 2:30 p.m.  
Columbia, Wed., July 20, 7 p.m.  
Crouse, Thursday July 21, 10 a.m.  
Every body invited to attend. A special invitation is extended to the ladies.

Miss Nell Callison entertained charmingly in the home of her parents on Englewood Road Wednesday evening with a progressive peanut party in honor of her birthday, Miss Ruth Lyon, of Campbellsville. For the occasion the interior of the home was decorated with daisies which presented very attractive decorations. The first prize competition was for a whisky which brought the name of Miss Mary Whifford. The guests prizes of souvenir spoons of Middleboro were awarded to the Misses Louise Perry, of Jasper, Ala., and Ruth Lyon, of Campbellsville. The consolation prizes were carried off by Miss May Van Gender, a handsome brooch, and Chas. W. Purcell, a stick pin. Delicious refreshments of cakes and ice cream were served at the conclusion of the games.

Mrs. J. M. Campbell, who has been with Floyd & Bohr Co., Louisville, has tendered his resignation and has accepted a position with the Curtright & Griggs Co., Inc. Campbell is one of Adair County's best men, is perfectly reliable, and has many friends throughout this section of the State. He is now visiting the merchants and graymen and will be thankful for all their extended.

We desire to extend our sympathy to Mr. John Q. Alexander, of Campbellsville, who was bereft of his aged father Mr. Hilary M. Alexander, who died very suddenly in Cleburne, Texas, two weeks ago. The deceased was born and reared in Cumberland county, Ky., and was a fine old gentleman—nearly eighty years old. Forty years ago he was prominent in the affairs of Cumberland county, Ky., and at one time was Sheriff of the county.

Mr. Oley Taylor, who makes Mr. Waller Bryant a very efficient County Court Clerk, will be absent from the office until fall. He was under obligations to teach the school, known as Agnes Academy, and entered upon the discharge of his duties as an instructor at Monday week.

The cornerstone of the Thomas H. Memorial United Brethren Church, Etowah, was laid by Bishop T. C. Carter, of Chatanooga, Tenn., last Sunday. A very large crowd was present and the exercises of great interest. Bishop Carter also lectured in the grove, near the church site, Saturday afternoon.

Mr. Sam Lewis' Board of Trade Building received a terrible shock last Friday, about the noon hour. A teamster backed his wagon against a post which held up the trim of the structure and it collapsed as quickly as would have a deadfall, the triggers being thrown by a rabbit.

A great many exchanges come to this office and in looking over them we can state that everything indicates a bountiful crop year throughout the State. Generally speaking, wheat is first-rate and such a crop of Irish potatoes has not been grown for many years. Many farmers are through plowing corn and tobacco are all set.

Mr. W. L. Meade and Mr. C. R. Carson, real estate agents, were in Columbia on Saturday. The latter bought Mr. S. D. Barbee's place and will in the near future cut it into building lots and sell them to the highest bidder. The price paid Mr. Barbee for his property was \$4,700.

## The Chautauqua Games.

Our baseball team made a miserable poor showing at the Lebanon Chautauqua, but it was not tailored. It defeated the Lebanon team, the score standing 3 to 2. Campbellsville defeated Columbia 4 to 1, and Springfield won over Columbus 6 to 3. It would be useless to undertake to go into the whys and wherefores. Those who witnessed the games say that our boys lacked team practice. Campbellsville demonstrated that it had the best team on the grounds, won the contest, Springfield being the last team defeated, was avoided by the spectators, rejoicing, and that will there be to it. To the visitors belong the spoils and we believe in that old adage. Taylor county is justly proud of their baseball team, and the reason for so being is good. If Columbia had won old bats would have been burned, bell rung, and horns blown, and if Campbellsville won to shout about, kick high over the success of her boys, she has the proof of the puden, and we say, amen.

The following is the score of the three games:

Date	July 4th	R. H. E.
Campbellsville	4	3
Columbia	3	2
Battery for Campbellsville, Wilson and Barnett; for Columbia, Woodrum and Rosefield; host on balls off Woodrum 2, Wilson 1; struck out by Woodrum 11, Wilson 9; stolen bases Columbia 4, Cville 1; two hits by Rosenfeld, Umpire, Coppage.	6	5
July 5th	R. H. E.	
Columbia	3	2
Springfield	6	5
Battery for Columbia, Judd and Rosefield; for Springfield, Brown and Sims; host on balls off Judd 1; off Brown 3; struck out by Judd 6; by H. Brown, 5. Umpire, Coppage.	3	2
July 6th	R. H. E.	
Columbia	3	2
Lebanon	2	1
Battery for Columbia, Woodrum and Rosefield; for Lebanon, Stump and Young; base on ball off Woodrum 1; struck out by Woodrum 12; by Stump, 5. Umpire, Ryan.	1	0

And he it resolved, That a copy of these resolutions be spread on the minutes of the Sunday School, a copy he sent to the Adair County News for publication, and a copy sent to the family of the deceased.

## Commissioner's Sale.

ADAIR CIRCUIT COURT, KENTUCKY.

Win. M. Webb, Planting, Josiah Wilson & Chas. Stewart, Dwt.,

By virtue of a Judgment and Order of Sale of Adair Circuit Court, rendered at the May Term, thereof, 1910, in the above cause, I shall proceed to offer for sale at the Court-house door in Columbia, Ky., to the highest bidder, at Public Auction on Monday, the 1st day of August 1910, at one o'clock p.m., or thereabout (being County Court) upon a credit of six months the following described property, to-wit:

Two certain tracts of land which lie together and form one tract out of the waters of Sulphur Fork of Russell River, bounded and described as follows:—beginning at two poles and a black oak supposed to be in a survey patented to H. H. Long thence norib 62 east 214 poles to two poles and two black oaks, thence N 68, W 27 poles to a poplar, thence N 86, W 236 poles to a stake passing a poplar and Black Gum at 230 poles marked as corner trees, thence S 28, E 147 poles, leaving a marked line at 5 poles to the left hand to the beginning excluding a boundary supposed to contain 13 acres where the above boundary laps over on the survey of H. H. Long. The other tract is a portion off of a tract sold by The Craven Co. to Wm. Burton and begins at the southwest corner of the above described survey and runs straight with the west line of same to the Somerset road thence with the meanders of said road until it intersects the east line of Cravens survey thence back to a gum corner with said line in the survey of Cravens survey.

For the purchase price, the purchaser with approved surety, or securities, must execute Bond, bearing legal interest from day of sale until paid, and having the force and effect of a Judgment. Bidders will be prepared to comply with these terms.

W. A. Coffey, Master Commissioner.

Mr. J. P. Beard is keeping up his record as an early tomato grower. Last year he was the first person to leave a sample at this office. Saturday afternoon he delivered us a very fine ripe one which he plucked from his garden. Mr. Beard stated that he had been using tomatoes from his garden for several years.

An infant girl baby of Mr. and Mrs. Elmo Strange died Monday night about 11 o'clock. It was afflicted with disases incident to children. Internment in city cemetery this afternoon. Sympathy for the sorrowing parents.

She silver set at the store of Mr. Geo. E. Wilson was drawn by Mr. Elmo Strange. It is quite handsome and valuable at twelve dollars.

## Died in The Asylum.

A message from Lakeland received by the County Judge, of Russell county, last Friday notified him that Mr. F. M. Helm had just died in the institution. The Superintendent was notified to prepare the body and ship it to Campbellsville. J. F. Triplett, undertaker of that place, met the remains at the hospital Saturday night and conveyed same to his home Sunday morning and placed it in a vault in the basement of his residence. The deceased, before his affliction, was a farmer and good citizen. He was about 55 years old. He leaves a wife and four children, one of his children being in the asylum. A large number of friends attended the interment.

W. C. Murrell and J. A. Willis, contractors, have been making some valuable improvements at the Graded School building, formerly the M. and F. High School building. New floors have been laid, partitions run, etc.

We understand that there are several cases of typhoid fever in the Cave Valley community, and that Mrs. Clark, the mother-in-law of Mr. Christy, who died two weeks ago, is lying very low with the disease.

Rev. J. R. Hindman and Dr. W. C. Hindman were the guests of Mr. and Mrs. J. R. Coffey last Sunday until after the noon hour. The dinner, a magnificent one, was prepared on a fireless cooker.

W. C. Murrell and J. A. Willis, contractors, have been making some valuable improvements at the Graded School building, formerly the M. and F. High School building. New floors have been laid, partitions run, etc.

We understand that there are several cases of typhoid fever in the Cave Valley community, and that Mrs. Clark, the mother-in-law of Mr. Christy, who died two weeks ago, is lying very low with the disease.

Rev. J. R. Crawford's afternoon meetings are growing in interest. Last Sunday afternoon, beginning at 6 o'clock, services were held on the lawn of Judge H. C. Baker, the attendance showing a large increase. The fourth Sunday afternoon the services will be held on the lawn at the home of Mr. J. R. Coffey. A cordial invitation is extended to every body.

The teachers of the county are again reminded that the institute will be held in the court-house the first week in August. Under the law every teacher is required to attend the full session unless prevented by sickness.

**Death of Mrs. Williams.**

The death angel visited the home of Mr. Burlie Williams Saturday July 2nd, 1910, and claimed for its victim, Mrs. Laura Williams. She was a devoted wife and mother.

Consumption was the cause of her death. She had been lingering along for some time. A few days before she died she called her husband to her bedside and told him that she would soon be gone from him and that he would see her no more on this earth, but that she had a home over yonder when she left here.

She called all her children to her bedside and talked to them and had them promise to meet her over yonder. While talking to one of her boys, Russell, he became almost lifeless and was carried out. He said he could not bear the pain of giving up his mother, but that is a precious jewel we all have to give up some day. Will we be ready to meet that mother when the angel beckons us to come.

Just before she died she told them all good bye and passed through the pearly gate.

She leaves a husband and eight children. We extend our sympathy to the bereaved ones who are left to mourn their loss.

She lived on green river. Her remains were laid to rest in the Mt. Carmel grave yard.

A precious one from us has gone.

A voice we loved is stilled.

A place is vacant in our home.

That never can be filled.

God in his wisdom has recalled.

The boon he has given.

Though the body moulders here.

Her soul is safe in heaven.

Desh M. Skaggs.

A Chicago professor announces that the planet Venus is very much like the earth, physically, and he gives it as his opinion that it is more likely than any of our other neighbors of the solar system to be inhabited. Inasmuch as Venus is much nearer the sun than the earth is the man who owns a good summer resort there must be lucky.

**Gen. P. Watt Hardin.**

(John D. Wakefield in Enquirer) Strange things are always happening in politics, but something unusual indeed may happen in the Eleventh Congressional District, where Caleb Powers and Representative D. C. Edwards are now fighting it out for the Republican nomination for Congress. The primary is not going to be held until the middle of September, but already both candidates are making a precinct canvass of the entire 19 counties. Men whose judgment in reference to political matters is usually good say that it is almost an impossibility to predict the results at this time. They say that one week the people of the mountains are convinced that Edwards will be a winner and the next week along comes a tidal wave of sentiment for Powers, which for the time being makes him appear to be a certain winner. At this time, however, it appears that the country folks in the mountains are for Powers, while the town voters and county seat politicians are lined up for Edwards. Over two months of campaigning is ahead. In the meantime both the candidates will try to visit practically every precinct in the whole mountain country, and in that time changes are apt to come and go so rapidly that it will be hard for anyone to forecast the result. There are many, however, who are confident that Powers will land the prize. While this struggle is going on within the Republican ranks there are many Democrat who would like to see Gen. P. Watt Hardin, of Williamsburg, nominated for Congress on the Democratic ticket. It will be recalled that General Hardin was a candidate for the Democratic nomination for Governor in 1890 when William Goebel was nominated in the celebrated Music Hall convention. After his defeat for the nomination General Hardin retired without a murmur to the mountains, where he has since lived quietly. He enjoys a good law practice and has hundreds of friends. His defeat never saddened him nor embittered him. It is understood that he has no political ambitions, but many of his Democratic friends want him to accept the Democratic nomination for Congress in the Eleventh District. Powers' history is familiar to all, but it would be a peculiar coincidence indeed if Powers and General Hardin, after all these years, should be political opponents, inasmuch as Powers was the man held a prisoner for so long, accused of complicity in the murder of the man who defeated General Hardin for the gubernatorial nomination after the latter thought he had the prize in his grasp. And it would be very much stranger if General Hardin as the Democratic nominee for Congress in the Eleventh District, should be sent to the National House of Representatives by the vote of a district that has always been able to roll up in times of need just about as many votes as it was necessary for the grand old party to have. None of these things may come to pass, but they are matters of absorbing interest and the subjects of discussion throughout the mountain country.

**What Democracy Offers.**

Here is the platform the average Democratic candidate for Congress will present to the people:

Lower duties on the necessities of life.

An income tax that a large part of the burden of the cost of government may fall upon those best able to bear it.

Reciprocity with Canada and our best customers.

Repeal of Section 2 of the Aldrich act that forces tariff wars and retaliation.

Election of senators by direct vote.

Old-time democratic economy in public expenditures.

Restoration of popular government in House of Representatives.

**Good for the Apple.**

"The use of apples as an article of diet will very much diminish, decrease, and ultimately abate the appetite for alcoholic stimulants," declares Dr. Samuel Baily, of Mount Ayr, Iowa.

"As a rule the habitual user of alcoholic stimulants is rarely a lover or consumer of apples. There seems to be a peculiar property in apples that allays the irritation or so-called appetite, produced by the use of liquor. I am thoroughly convinced," says the doctor, "that any man who is a lover of whiskey and is in a condition that he thinks he must have a drink, if he will eat an apple before he takes the drink, will find that his appetite for the drink has been materially lessened, if not entirely abated for the time." The doctor suggests that honest trials be made of munching on Ben Davis, Spitzemberg or Jonathan apples.

The advice is doubtless good so far as Spitzemberg and Jonathan apples are concerned, but we believe that even a total abstainer would be driven to drink if he made a regular practice of eating Ben Davis.

**Swine at The Fairs.**

If you have any animals that are worthy of going to any fair, better get them in shape to enter the show ring. There is nothing that helps the pure-bred swine business so much as a fine display of hogs at the county and state fairs. Did you ever stop to think that the loses with his hogs is just as much of a booster for the business through the fairs as the winner? It is true! Take the hogs all away from any State fair except the winners and see what the papers would say about the swine display. They would roast it to death.

All of us cannot be at the top. If you have good stuff you can sell it or get in touch with the breeders who want that sort of animals, whether you are a winner or not. The men behind the ribbons sell a great many more hogs at the State fair than the winners. This is so the world over. To get a hog into a judging ring is a liberal porcine education in itself. There is not a breeder in the game who would not tell you that he first made his real start in the breeding business when he entered his first hog in hot company. It was the keeping at it that made him an eventual winner.

**Poor Mule.**

This is the story of a Kansas mule. The corn was about ready to lay by, and his master was in the midst of the final plowing when the mule decided that he was through with work. No amount or form of moral or other suasion could induce him to "pull the hat off your head." Exasperated beyond endurance, the master at last succeeded in leading him to a nearby corncrib, where he fastened him with a log chain with the expressed intent of leaving him there until he came to his senses. The day was as hot as—Kansas. The flies were Kansas flies and thick as they grow in Kansas. The crib was full of popcorn. By and by the mule began to register his protest against the outrage, for such he conceived it to be by a lively tattoo against the side of the crib. "An' he kicked an' he kicked an' he kicked" until his shoes became red hot and set fire to the corncrib. The fire popped the corn, which fell about in such profusion that the mule believing it was snowing, lay down and froze to death.

**How to Serve Watermelon.**

Watermelons are especially cooling and refreshing on a hot day because of deliciously-flavored juice which they contain," says Fannie Merritt Farmer in Woman's Home Companion for June. "The edible portion is sometimes thoroughly chilled, cut in small cubes (removing the seeds), sprinkled with powdered sugar and arranged in coupe glasses for the first course at luncheon or dinner. For family use it is most attractively served in one of the following ways:

Cut a section three or four inches in thickness from the center of a chilled watermelon. With a sharp knife cut out a circle of the pink pulp (the edible portion) and place upon a chilled serving-dish of, correct size. Serve in pie-shaped pieces on chilled plates or cut off a thick slice from both ends of melon (that the halves may stand level) and cut in halves crosswise. Arrange on a serving-dish on a bed of green leaves, if any are at hand."

**His Point of Order.**

A prominent clergyman was asked by a colored minister to preach in the colored people's church, and he gladly consented. Reaching the church, where he was the only paleface present, the preacher delivered a sermon full of helping advice, made an eloquent prayer and then announced that the service would be closed by singing the hymn, "Wash Me and I Will Be Whiter Than Snow." At this point one of the darksome congregation rose to his feet.

"Look hear, paason," said he impressively, "yo' hab to scuse me, but I rise to a point of order." "What is dis way?" replied the parishioner. "Yo' had evidently made a mistake in de crowd. Dis am a cul'd congregashum, an' 'sence all de pump watash an' soap in de country can't make de words ob dat hymn come true, jes' wish dat yo' would change her to someudder tune."

**For the Farmer.**

Roupe, the scourge of poultry, keeping in cold climates, must be prevented if pleasure and profit are to be gained from the business.

Don't starve the dry cow, just because she isn't bringing in any income at present. Later she will pay back all she gets now.

The great drawback about dairying with grades is the loss of the male calves. You should not sell them for sires and they seem too valuable for veal.

Sweet oil is a safe medicine to administer to animals. It never injures, but is valuable in choking, bloat; inflammation or constipation of the stomach or the bowels.

During the winter eggs sold

in towns & cities at from 40 to 60 cents a dozen. During the summer and early fall eggs can be preserved or placed in cold storage very easily.

Gog idges say that it will be at least two years before the supply of pigs can be made to equal the demand. The high price of breeding stock certainly would otherwise be a large increase in creasian quantity.

Plots should be sown with reference to their size and habits, of which some require distance, others thrive better when planted close together. The gardener must know his plants as a farmer does his field crops.

For wounds made on horses or cattle, by barbed wire fences, etc., nothing is better than a imposition of carbolic acid, half ounce, glycerine, eight ounces and water eight ounces. A syringe is a good thing to inject this into the wound.

**Few Passed.**

During the last session of Congress 35,865 bills were introduced in the two branches, the majority of which were for pensions, notwithstanding the general law is as liberal as can be. Of the bills intended for the general good, 135 originating in the House and eighty-three in the Senate became laws. A person with a penchant for figures says that the debates in Congress the statesmen uttered 10,000,000 words and that, dividing that with the billion or more appropriations made, it cost the county \$99,444 a word. The Congressional Record reached over 10,000 pages. It costs the country a great deal to get very little.

Mr. J. C. Sims, the well-known tombstone man, has removed his machinery from Campbellsville to Lebanon where his main office is located. He will also have a branch shop at Campbellsville. Mr. Sims has delivered a great deal of work to people of Adair county, giving perfect satisfaction. He continues to solicit the work from this section of the State.

"Here's to laughter! the sunshine of the soul, the happiness of the heart, the leaven of youth, the privilege of purity, the echo of innocence, the treasure of the humble, the wealth of the poor, the head on the cup of pleasure; it dispels dejection, banishes blues and mangles melancholy, for it's the foe of woe, the destroyer of depression, the enemy of grief. It is what kings envy, peasants, plutocrats envy, the poor, the guilty envy, the innocent; it's the sheer on the silver of smiles, the ripple on the waters of delight, the glint on the gold of gladness, without it humor would be dumb, wit would wither, dimples would disappear and smiles would shrivel, for it's the glow of a clean conscience, the voice of a pure soul, the birth cry of mirth, the swan-song of sadness, Laughter!"

**Work 24 Hours A Day.**

The busiest little thing ever made are Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, languid energy, brain-ing into mental power; curing Constipation, Headache, Chills, Dyspepsia, Malaria. 25¢ at Paul Drug Co.

**Amount of Grain on Pasture.**

Growing or fattening pigs cannot be produced satisfactorily on pasture alone, but a grain ration is necessary. The Montana experiment station found that hogs fed full grain ration on pasture gained on an average 1.39 pounds per day and required 412 pounds of grain for 100 pounds of gain. Hogs fed a half ration of grain gained 98 pounds per hog per day and required 291 pounds of grain for 100 pounds of gain. Thus will be seen that the hogs fed a full grain ration on pasture made more rapid gains, but consumed much more grain for every 100 pounds of gain.

**From "Billy" Sunday.**

The mother who allows her young daughter to gad the streets and keep company with boys of questionable character merely opens the front door to grief. If you don't know what company your girl keeps or what time of the night she turns in, your roar when the gossips get busy will sound about as pathetic as the wheeze from a Jewsharp.

The girl who insists on spooning with everybody in the corporate limits ought to be backed into the woodshed and relieved of her overflow of affection with a No. 11 slipper laid carelessly across the hiplets. We had sooner see a girl kiss a blind shoat

through a barbed wire fence than to have her change partners six nights a week in the front parlor with the lights turned low. It is harder to marry off a girl who has been pawed over by every yap in the community than it is to fatten a sheep on pineapple ice cream. You can't gold brick a sharp-eyed suitor with second-hand goods any more than you can fit a bathtub on a goat.

There are lots of weak-minded parents who are going up against the judgment day with about as much show as a cross-eyed girl in a beauty contest, and their children will rise up and call them blessed with the enthusiasm of a one-legged man at a country dance.

**Sugar Beets as a Stock Feed.**

Stockmen have long been of the opinion that a ration of mangel-sugar beets in some way causes kidney or bladder stones when fed for any length of time. To shed some light on this subject the Iowa experiment station has been carrying on some experiments in feeding mangels and sugar beets to rams. The result of these experiments show conclusively that such feeding is attended with considerable danger and is almost sure to prove fatal if continued for any considerable period of time. For short fattening periods there is no particular danger, and the roots make a valuable addition to the ration.—Country Gentleman.

**Those Pies of Boyhood.**

How delicious were the pies of boyhood. No pies now ever taste so good, what's changed? the pie? No, it's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up of the digestive system, all organs—digestion, stomach, Liver, Kidneys, Bowels. Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50¢ at Paul Drug Co.

**Faithfulness is What Counts.**

The man who is always doing things with a view of making a reputation, succeeds only in obtaining notoriety; while he who never thinks of anything but duty secures a reputation without being aware of it. A young man who shunned publicity and who did his work as he thought, out of sight of the world, recently passed away. In his last illness he was surprised to learn of crowds who came to express their sympathy—many of them people of whom he had never heard. They had quietly watched his quiet work, and knew him not by his efforts to make him

self known, but by his efforts to be faithful.

The first thing to do is to look to the welfare of your bowel. There the trouble usually lies. All physicians know that a healthy bowel is the best guarantee against constipation, and from this reason that women complain less.

But there is no taking "female remedies" which will not only give you relief but will start your bowels to moving.

You must take a laxative every day, or twice a day, or three times a day, or even daily.

Syrup Peppermint for adults and for children, will regulate them and make them strong.

Take a good dose of this syrup each morning.

It will cure you, as it did them, there is no doubt.

**WED. JULY 13, 1910.**

Jeffries has fought his last fight. His father says that Providence defeated him.

The Jeffries-Johnson fight pictures have been barred from nearly all the large cities. It was feared there exhibition would bring on trouble between the whites and the blacks.

Frank Reynolds met an awful death in Louisville a few days ago. He was standing over a sewer, talking to a friend, when suddenly the earth caved in and he went down to his death. His friend could not save him and he hallooed for help and a number of men went to the scene, but too late to render assistance.

Chief Justice Melville W. Fuller, who died at his summer home in Sorento, Mo., last week, was a Democrat and a great lawyer. He was appointed a Judge of the Supreme Court by the late President Cleveland. His vacancy will probably be filled by Judges Hughes, a late Governor of New York.

Senator Bob Taylor, of Tennessee, who promised, some time ago, to canvass and make speeches over the State for the Patterson crowd, has withdrawn said promise. Patterson's opposites made it too hot for the Senator. The Democracy of Tennessee is in very bad shape, the murdering of E. W. Carmack and the pardoning of Cooper being the cause.

Throughout the country Republicans are seeking the aid of Mr. Roosevelt and the announcement that he will make ten thousand votes for Senator Beveridge in a speech to be delivered in Indiana shows the high estimate of his services as Republicans claim. If their estimate is correct he must be the dictator of the ballot, the king of his party—"The Czar of all the Russians," so to speak. Go see Teddy if you have troubles.

Carl Etherington, whose home was at Willisburg, Washington county, this state was lynched at Newark, Ohio, last Saturday night, four thousand men reported to have been in the mob. Etherington was employed as a detective by the Anti-Saloon League and he raided a place owned by a policeman where soft drinks were sold. The officer and Etherington got into a fight, the latter killing the former. Etherington was placed in jail, the doors knocked down and he was taken out and mobbed. His remains were shipped to Kentucky. The officers who permitted this foul deed should be severely dealt with.

The departure from the newspaper fraternity of Mr. Thos. W. Mattingly removes one of its oldest members. He has been editor and part owner of the Lebanon Enterprise for the past

fifteen years. He has sold his interest to his partner, Mr. Oliver Kelley and will remove with his family to Little Rock, Ark., having accepted a position as teacher in a noted Catholic institution of learning. The best wishes of Mr. Mattingly's many Kentucky friends will follow him to Arkansas. He was a prudent writer and was connected with a good paper. The Enterprise is Democratic, and there will be no change in its sentiment.

The sainted Desha Brickett ridge, editor of the Lexington Herald, declines to support Campbell Cantrell, who was nominated for Congress by the Democrats in the Seventh district. What difference will it make? Brickett ridge's Democracy is not more than skin deep. For several years he has been as much against the Democratic party as he has been for it. Now if the State Journal, Beckham's paper, would announce that it could not support the nominee, Mr. Cantrell would probably consider the propriety of withdrawing—in a horn. If a Democrat goes into a primary, votes for his choice and his favorite loses, he will support the nominee. If he fails to do that he is not much akin to the Democrats in the mountains of Kentucky or anywhere else.

## Dirigo.

Miss Mars Stapp, the old lady who was removed from the Gradyville section a few weeks ago died at the home of J. D. Patterson last Monday, and was buried at the Patterson cemetery next day. She was a highly respected old lady and was an aunt of Mrs. Patterson instead of her grand mother as stated in the News a few weeks ago. She had never been married and leaves a host of relatives and friends to mourn their loss.

James T. Page, Columbia, did business here a few days last week.

Mr. and Mrs. Manna Kemp, Gradyville, visited at J. D. Patterson's last Saturday and Sunday.

324½ acres of land formerly owned by the late John Blair was sold at the court-house door last Monday for \$1330.90, N. M. Tutt being the purchaser. This is extra good land and in the lifetime of Squire Blair this was considered one of the best farms in southern Kentucky. And now since Mr. Tutt has been pronounced to be one of the best farmers in the State may we not expect to see this farm again blooming like the rose within the near future.

Rufus, the little son of Mr. and Mrs. J. G. Campbell is very sick at this writing.

There has been more fish in Harrodsford this season than for many years. But I think that they are about all gone now, for I have heard of fishing by various ways, and notwithstanding

the laws on this subject "I think that seines from five feet to a hundred yards long have been used. Hence there has not been many minnows left."

## Ruby.

We are having some rain now and farmers are badly behind with their work.

The little son of Mr. and Mrs. W. J. Bean, who has been on the sick list is reported better.

Mr. and Mrs. Vennis Royse, Dirigo, visited Mr. and Mrs. Arthur Royse Monday.

Mr. and Mrs. S. E. Estes were the pleasant guest of Mr. and Mrs. W. J. Bean Sunday.

Ruth, the little daughter of Mr. and Mrs. X. W. Scott who has been on the sick list is better.

Mr. and Mrs. Moran of Columbia, visited the family of W. J. Bean Sunday.

## Russell Springs.

Dr. A. A. Hatfield is visiting his parents at Jabez this week.

Drs. S. J. Simmons and B. J. Bolin, who graduated in the medical department, University of Louisville, on June 30th arrived here last week.

Mrs. Tina Wells is visiting in Columbia this week.

Mr. Vernon Holt came in Monday with his race horses which he will train until the Fair at this place Aug. 9.

Mrs. Vertie Stephens and Miss Will Winfrey, were in town Friday.

Mr. Welby Absher has charge of the soda fountain.

Mr. Orville Holt has accepted a position with the Winfrey lumber and stove Co.

We understand that Prof. Barnes has been employed as principal of the school at this place for this year. We think the school board made a wise choice and that patrons of the school will be pleased to learn that Prof. Barnes is to return to Russell Springs.

Prof. W. L. Stearman, this place, returned recently from a visit to Dallas, Tex., and left again immediately to accept a position in the department of commerce and labor, Washington D. C. Prof. Stearman's brother who has been in Texas, about seventeen years, accompanied him on his return from Dallas and is now spending some time visiting relatives and friends in Russell county.

Our merchant J. A. Webb, is having a thriving trade.

Mr. Ethel Webb, Dow Cunningham and Miss Jessie Weir, took examination at Liberty last week.

Miss Marie Duffy of Cincinnati, is spending a few weeks at the home of N. E. Weir's, for her health. She is seventeen, a graduate of Saint Zavier's College, Cincinnati, and has never been in the country. We are glad to have her with us.

Mr. U. E. Stapp, of Roy, was visiting here Sunday.

Mrs. Doe Foley who has been visiting a sick brother in Green county, has returned home.

Mr. Joe Lucas who has been in very poor health this spring is able to be out again.

Mr. and Mrs. Henry Lucas were the guests of Mr. Mrs. N. E. Weir, one day last week.

Mrs. J. A. Webb and her daughter Mrs. Ethel Webb, were visiting at Mr. June Webb's one day last week.

Mr. James Pelley our poultry man, and Miss Ada Loy of Luttrells creek, passed through here one day last wtek en route for Tennessee, where they were quietly married.

Miss Prudy Stackhouse who has been very sick for a year is improving slowly.

Out of the 45 applicants for certificates in Casey county Ethel Webb received highest grade.

Misses Cap Clarus and Beatrice Webb, spent Sunday with Jessie Weir and Miss Duffy.

### Bill Nye's Cow.

Bill Nye once had a cow to sell and advertised her as follows: "Owing to my ill health, I will sell at my residence in township 19, range 18, according

to the government survey, one plush raspberry cow, aged 8 years. She is of undoubted courage and gives milk frequently. To a man who does not fear death in any form she would be a great boon. She is very much attached to her present home with a stay chain, but she will be sold to anyone who will agree to treat her right. She is one-fourth Shorthorn and three-fourths hyena. I will also throw in a double-barreled shot-gun, which goes with her. In May she usually goes away for a week or two and returns with a tall red calf with wobbly legs. Her name is Rose. I would rather sell her to a non-resident." —Ex.

hens, for they disturb her.  
Don't let the dog worry your poultry.

Don't crowd your chicks in the brooder if you want fine broilers.

Don't breed scrub poultry, none but pure bred.

Don't feed chicks sloppy food.

Don't buy cheap-breeding stock.

Don't forget to give fresh water every day.

Don't let eggs get chilled that are to be used for hatching.

Don't allow your little chicks in the grass till the dew is off.

Don't let the lice get near your poultry or poulties.

Don't risk valuable aggs with pullets as setters.

### Much Wasted.

Frankfort, Ky.—All the expenses of the State government could be paid out of what is wasted under the present system, declares Frank I. James, State Auditor, who is trying to cut down the expenses of the State, at the same time he is increasing the revenue.

Mr. James wants to show money in the treasury and all debts paid when he goes out of office, and is bending every effort in that direction. To this end he is collecting back taxes from every available source, and is stirring things up in many counties.

Mr. James says that the State will pull out of the hole all right. He has contended this all along, and has insisted that an extra session of the Legislature was not necessary.

Mr. James is one of the hardest workers at the capitol, and he knows how to economize time so that he can transact a world of business during office hours and have time for other things.

Somebody asked Mr. James how he found time to attend so many different lines of business when he was kept so busy with his duties State Auditor, Mr. James replied:

"I know the value of time and how to save it. Then I go to work early and clean up each day's work that day so that things never accumulate. I would rather come to work early and get through early than come down late and have to work late."

### Good Treatment For The Sow.

Give the sow good treatment after she has suckled the litter and they are weaned. She is

worthy of it. She has done the best she could and will try it again this fall if you breed her. Do not think that a sow that is thin should have a bushel of corn thrown to her every day and this will bring her up from a roundish shape. Stop her generously and give her pasturage that she likes, a clean bed at night, some grain twice a day and keep her away from the tormenting pigs that will worry her life to a thread.

If you want a good fall litter and want early ones, give her attention and she will soon be in shape to breed. If she has to run the gamut of summer lice and filth, dirty troughs and scant feed, or feed of one kind, she will not come ready for breeding as soon as if she had care. Remember that. To be at her best for breeding does not mean that she should be fat and so big she can hardly get about. It means that her blood and digestive apparatus should be in fine shape, that her legs and body should be in good trim from the exercise she gets in foraging about and that she has come to know you as a porker's friend and will walk up to you when you go down to the pasture. —Ex.

### A Pig That Caused a War.

Champ Clark, the minority leader in the House of Representatives, says he hopes to write some day a book about what a margin of one vote has caused to happen in the history of his country. One of the instances of what one vote will do, he describes as follows:

The war between this country and England in 1812 was caused by one vote, and stranger still, the small margin came from a pig's getting its head struck in a rail fence. It was Rhode Island fence at that, but built much like a Virginia worm fence.

They were having an election of members of the Legislature in Rhode Island. One Federalist put off going to the election and left himself just time enough to get there before the polls closed. Just as he got on his horse and started for town he heard a pig squeal. He looked around into that old rail fence, and anybody who knows anything about hogs knows the hogs would have

eaten that pig up if it hadn't been rescued. The farmer stopped long enough to liberate the pig and when he got to the polls they were closed. He was too late.

The result was that a Democratic member of the Legislature was elected from that district by one vote, and he would not have been elected if that Federal had got there on time. In the Legislature a Democratic United States Senator was elected by one vote, and that Democratic legislator who had been elected by one vote voted for him.

In the United States Senate they voted for the war of 1812 by one vote, and that Rhode Island Democratic Senator who had been elected because that pig got caught in the fence voted for the war of 1812.—Popular Magazine.

### The Medical Society.

The Adair County Medical Society will meet in Columbia, on Friday July 15, 1910. The change has been made to Friday to accommodate some doctors who want to attend the Masonic Lodge on Friday night. The program will consist of papers on the program before, and from sickness and other causes that were not read.

Wm. Blair has a paper on the use of Medical Societies.

Sam Taylor—Should we leave our regular business to attend Medical Society?

W. F. Cartwright—The present status of the Medical Profession.

W. R. Grissom—How can we improve the interest in our Society?

Voluntary papers will be read by other members of the Society.

Important cases will be reported by several members, and discussed by the members. Don't forget the change in time, from the 2nd Thursday to the 3rd Friday.

Franklin, the physician on hand, let us have a good meeting. Dr. Hammond, the Counsellor from his district, has promised to be here, and give us a helping hand.

W. F. Cartwright, Committee.

### Why Jones Was Sad.

Jones' rich grandmother died and Jones seemed unnaturally depressed and sad. His friends tried to cheer him.

"She left a last will and testament, I suppose," said Jenkins, carelessly.

"Oh, yes," said Jones, raising his head at last, "she left a will and testament."

"An," chimed in Brown, "you were always a friend of hers! Of course your name was mentioned."

"Yes," answered Jones, bursting into floods of tears, "my name was mentioned, boys. I am to have—"

They hung expectant, while more sobs choked back his words.

"I," he declared at last, "am to have the Testament!"—Scraps.

## Nervous Women

For nervous, tired women, we recommend Cardui. Cardui is a woman's medicine. It acts specifically on the female organs and has a tonic, building effect on the whole system. It contains no harmful ingredients, being a pure vegetable extract. If you suffer from some form of female trouble, get Cardui at once and give it a fair trial.

# TAKE CARDUI

It Will Help You

Mrs. W. W. Gardner, of Paducah, Ky., tried Cardui and writes: "I think Cardui is just grand. I have been using it for eleven years. I am 48 years old and feel like a different woman, since I have been taking it. I used to suffer from bearing down aches, nervousness and sleeplessness, but now the pains are all gone and I sleep good. I highly recommend Cardui for young and old." Try it.

### Manners for Children.

If children are trained early regarding their table manners there can be no fear of the future. The essentials are: To sit at the table in an upright position, not to place the arms or elbows on the table; to properly hold and use a knife, fork, spoon, rakin, glass, etc., not to place too much food in the mouth at once; masticate slowly and without noise.

Children should be taught to wipe the lips before drinking from a glass. This keeps the rim of a glass in a clean condition. The little ones should be impressed with the importance of taking the teaspoon from the cup and placing it in the saucer as soon as they have stirred contents of the cup. Teach them not to muss the food on their plates, and to eat what is given them without comment. It is better to serve them small portions and allow them to be served a second time.

The knife and fork should never be crossed but should be placed parallel on the plate when the child has finished a course. Tots should be taught to decide and answer promptly when asked as to their choice of food. Make it a rule that the child can not come to the table with soiled face or hands, unbrushed hair are clothing in disorder. Make the table a social gathering place for the family, and encourage the children to join in the conversation—to talk of their life outside of the home, the occurrences in school or in play.

Never allow any gossip of any sort.

If they need correcting in table manners make a note of the fault and speak of it after the meal. Example is much stronger than precept. With the early training of the child the old adage of the bending of the twig can be shown, and the little ones who are taught at an early age very rarely forget their lessons.

### Like Some Other Epitaphs.

"I was called in by a close friend old merchant the other day," a Boston lawyer remarked, smiling. "He wanted me to draw his will, and this I proceeded to do, following his verbal instruction. Presently he said:

"To each and every clerk who has been in my employ continuously for ten years I give ten thousand dollars."

over to Hutchison School house some Sunday. There are not many singers over here but nothing like learning and trying to sing.

Mr. L. M. Grimsley is trying to get a singing class made up at Hutchison school house. He now has 15 scholars.

### McGaha.

Farmers are so busy plowing corn that they dream of plowing at night.

The singing at Pleasant View was largely attended and every body seemed well pleased.

Little David Bryant, Jr., happened to a painful accident the other day while on the way to Green river with a fishing party, falling from the wagon breaking his arm. The wound was dressed by Dr. Grissom. One man in the party captured a hive of bees while on this trip.

Jordan Burton, who has consumption, is no better.

The Pleasant View school has closed until the first Monday in August.

Lathatt Rooks killed a large copperhead snake the other day in his garden.

People have commenced stacking wheat in this neighborhood.

Jessie Powell who has been sick, is some better at this writing.

L. M. Grimsley will probably teach music during the month omission of the Pleasant View School.

Mr. Frank Burton and wife were the guest of J. F. Neat a few days ago.

Miss Bell McGaha, of Louisville, was a guest at Mr. John Hadley's a few days ago.

The snakes, cats and candy breakings make night hideous.

Mr. Anderson Murrell, who has been attending school in the blue grass section, sang at Oak Grove last Sunday.

Mrs. Lyda Dehart, of Spurlington, visited her son a few days ago.

Miss Susan Murrell attended singing at Oak Grove.

Bucker Grimsley was on the sick list a few days ago.

Miss Dinnie Grimsley, who has been sick, has recovered.

Several from the Pellham neighborhood attended the singing at Pleasant View.

A short time ago the stork arrived at the home of Bay Rook and delivered a fine girl.

Ellic Sinclair is thinking of going to Illinois.

Mr. Vanhooy, the well-known driller, was in our town a few days ago.

### Kerns.

Health of this neighborhood is very good at present.

Farmers are getting very well up with their work. Wheat has been cut and some have stacked and awaiting the threshers.

Corn is looking fine in this section, some are through plowing.

The Sunday school at this place is progressing nicely. Its manner and success is fertile and up-to-date in every respect, under control and instructed by its Superintendent, W. E. Shaw. It is the largest Sunday School in this part.

Morrison & Co., have a lot of good dressed lumber which they will sell below the market price for the next thirty days.

### Strange Case.

Like Shylock, with his judgment of a pound of flesh, an Omaha jeweler has been placed in the dilemma of being unable to claim his property awarded by the court except at the risk of murder. In this instance the pound of flesh is a \$300 diamond in the vermilion appendix of a self-confessed shop lifter.

A well dressed young woman, while being shown a tray of diamonds, slipped one of the finest of the stones into her mouth. Accused, she swallowed it. But up-to-date science is not baffled at so simple a trick. The X-rays was applied to the young woman and the stolen diamond was located in her appendix.

"The diamond is yours," said the judge to the jeweler. "Take it; but if in getting it you cause the young woman's death you will be held for murder."

Surgeons say the diamond can be recovered only by an operation, and that if it is not recovered the young woman will surely die.

"I will die before I will let them operate," she says stoutly, and they must not operate without her consent.

The right to resist operation for appendicitis must not be broken down. If it should be, few of us might escape the knife. Few enough escape, as it is.

It was this same city of Omaha that a noted physician declared that not over three per cent. of the operations performed for appendicitis are justified. The appendix is supposed to be an organ of no use. But on that catches and holds a \$300 diamond must be admitted as having it virtuous, and none can blame the prisoner for insisting upon retaining it. To be sure a diamond in the appendix is of no use. But of what use is a diamond anyway.

### The Country Boy Gets There.

W. J. Spilman, of the United States Department of Agriculture, claims that boys raised on the farm have a great advantage over those brought up in the city.

In a recent article in support of this view, Mr. Spilman points out that 92 per cent of the presidents of the United States were brought up in the country, and that 89.2 per cent of the state governors of the Union, 83.9 per cent of the cabinet officers of the United States, 55.4 per cent of the railway presidents, 64 per cent of the members of the house of representatives, and 70.6 per cent of the United States senators were similarly brought up.

Many of our greatest men were the sons of obscure parents. Thomas Moore was the son of a grocer, Rembrandt of a miller, Euripides of a fruiterer, Virgil of a baker. Horace of a freed slave, Anayot of a currier, Voltaire of a tax-gather, Lamotte of a hatter, Sixtus the Fifth of a swineherd, Fletcher of a chandler, Massillon of a turner, Tamerlane of a shepherd, Rollin of a herdsman, Rousseau of a watchmaker, Molire of an upholsterer, Ben Johnson of a mason. Shakespeare of a butcher, Sir Thomas Lawrence of a custom-house officer, Collins of a hatter, Gray of a notary, Beattie of a farmer, Edward Sugden of a barber,

**Gradyville.**

Dr. James and Bruce Taylor of East Fork, Judge W. H. Moss and A. W. Tarter, of Columbia, attended the Powers speaking here last Thursday.

We have had rain every day for the past week.

John Campbell, representing the Cumberland Grocery Co., of Lebanon, was to see our merchants Friday.

W. B. Hill, after a absence of five months in Western Ky., selling Pratts food, returned home last week. He reports he had a good business.

Charles Sparks of Weed, passed through here Friday en route for Columbia.

Mr. Mayfield, the well known dry goods man of Nashville, was calling on our merchants a day or so of last week.

J. F. Pendleton left here Friday with a car load of sheep and cattle for the Louisville market.

Strong Hill's carding machine is now ready for business and is in good running order.

Dr. J. H. Grady of Columbia, was here to see his brother a day or so of last week.

Mrs. J. N. Coffey and Mrs. George Stults, of Columbia visited Mrs. Ella Robertson last Thursday and Friday.

Mr. H. A. Moss of Greensburg, stopped over for dinner with his brother on his return from East Fork last Thursday.

Uncle Thomas Grady one of our oldest citizens has been on the sick list, but we are glad to note at this time has greatly improved.

Messrs. Hill and Cummins will start their threshing machine the first of the week. From the appearance of their machine it looks like it would do good business.

Mr. Charlie Diddle will teach the school at Cool Spring, Miss Ethel Moore at Big creek, and Mrs. John Pickett at Nelson school house. All the schools will begin Monday. The trustees of the various schools should be complimented for securing the services of the above teachers.

Mr. Jack Stotts of the Stotts community was in our town last Friday and informed us that everything was moving along nicely in his community with fine prospects for a good crop of corn and tobacco.

We must say to the Milltown reporter that we do not claim to produce oats equal to the Russell creek bottoms, but we simply wanted to let the people know the virtue there is in the low grade of the Fox brand fertilizer on some of our ridge land used in oats.

Messrs. J. A. Diddle and J. F. Pendleton closed a deal one day last week with Dr. L. C. Neil and others, buying one of the largest tracts of timbered land in this section. The land is known in this community as the Dean land, the consideration was \$3,250. Messrs. Diddle and Pendleton will have the timber made into lumber in the near future.

The continued rains for the past week has little bit discouraged our farmers as we have heard some complaint about their tobacco and corn in the grass and weeds, also afraid they will lose their oats and wheat before they can

get it cut and stacked. If we will only have patience everything will come around all right, no use to worry.

On Saturday before the first Sunday in August, all the people that are interested in the old cemetery at Union are requested to meet there at 10 o'clock and bring your dinner. The intention of the call is to clean off the cemetery which is badly needed. In the afternoon when the work is completed Rev. J. R. Crawford will preach us a sermon in the grove near by. Possible we will have a memorial service. Let us all remember the city of the dead and be there on time with our dinner and do the work.

On last Thursday at the appointed hour Mr. Powers spoke to a large audience of Republican at this place. The audience was estimated anywhere from three to five hundred people including all sects and color. From what we have learned from the leaders of the Republican party in this section right at this time, Mr. Powers is sickly in the lead. But we can not say just now what the result will be after Mr. Edwards delivers his message. Mr. Powers spoke from the residence of Mr. Robert O. Keltner and the large audience was in his yard and a good time prevailed with all.

**Glensfork.**

The base ball games, played on the 4th, between the team at this place and the three neighboring teams, turned out to be a base foul affair, sure enough. Baseball is America's National game and when properly conducted develops both muscle and character, but in this country the ball yard is commonly regarded as a congregating place for the foul mouthed blackguard and blustering bully.

Mrs. William Harvey died on the 5th inst., of measles. She had been in a very poor state of health for several years and being very old no one expected her to survive the severe attack of measles. Mrs. Harvey had been indeed a good Samaritan in her neighborhood. No sick neighbor was ever without the tender touch of her sympathetic hand. She was very religious and we confidently believe she is to-day numbered with the host that surrounds God's eternal throne. Her aged husband who is a deaf mute survives her, also four sons and a daughter.

David Willis, of color, died on the 2nd, of consumption. He was about 75 years of age and had lived in this community all of his life. He was an ex-slave and was at one time the property of Mr. A. G. Willis, of Joppa. Uncle Dave, was devoutly religious and was the most honest, peaceful, and upright negro I ever knew. His aged wife and a little daughter survive him.

The social at H. C. Hudson's a few nights ago was well attended and highly enjoyed by all present. Caleb Powers addressed a small audience here on the 6th.

Mr. J. C. Sims, the well-known tombstone man, has removed his machinery from Campbellsville to Lebanon where his office is located. He will have a branch shop at Campbellsville. Mr. Sims has delivered a great deal of work to people of Adair county, giving perfect satisfaction. He continues to solicit the work from this section of the State.

**Garlin.**

Uncle Tom Conover is better at this writing.

Farm work has been suspended for several days on account of the wet weather.

Corn is looking very nice in this part.

Several from this place attended the 4th at Bear Wallow, and all reported a good time.

Miss Willard Huffaker opened up school at Disappointment the 15th. We are glad to have such a pleasant lady as Miss Willard to teach our children, and feel sure if the scholars will do their part she will do hers.

Miss Fannie Evans who has been visiting her sister, Mrs. Ben Roys, has returned home.

Miss Ruth Rule has returned home from a two weeks visit with her cousin, Mrs. S. C. Neat, Columbia.

Mrs. G. W. Grasham and children, Mrs. J. L. Cooper and daughters, Kate, Frona and Edith and Messrs. Edgar Rule and Pink Dunbar, were splendidly entertained at dinner on the 4th, by Mr. and Mrs. B. G. Redmon.

Mrs. John Rule is visiting her daughter Mrs. S. C. Neat, Columbia, who is very sick with measles.

Bro. B. M. Currie, Columbia, preached a very interesting sermon last Sunday afternoon at Disappointment.

Mr. and Mrs. Aaron Wilson spent the day with Prof. and Mrs. Huffaker last Sunday.

**Those Pies of Boyhood.**

How delicious were the pies of boyhood. No pies now ever taste so good, what's changed? the pies? No, its you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowls of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—stomach, Liver, Kidneys, Bowels. Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. See at Paul Drug Co.

It's a girl at Ned Lewis's. Mother and baby doing well.

Dr. S. B. Cheatham was here Saturday.

Mrs. Jane Stinson of Breeding and Uncle John Albertson of Waterview, are visiting Mrs. Dishman.

**Those Pies of Boyhood.**  
How delicious were the pies of boyhood. No pies ever taste so good, what's changed? the pies? No, it's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowel of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—stomach, Liver, Kidneys, Bowels. Try them. They'll restore your boyhood appetite and appreciate your food and fairly satiate your body with new health, strength and vigor. See at Paul Drug Co.
